

# City of Point Public Notice

The City of Point, TX1900004, has violated the monitoring and reporting requirements set by Texas Commission on Environmental Quality (TCEQ) in Title 30, Texas Administrative Code (30 TAC), Section 290, Subchapter F. Public water systems that treat surface water and/or ground water under the direct influence of surface water are required to submit monthly operating reports with operational data of the treatment, disinfection and quality of the water provided to their customers.

We failed to monitor and/or report the following constituent's treatment techniques violation.

This/These violation(s) occurred in the monitoring period(s) 05/26/23 to 5/27/23.

Results of regular monitoring are an indicator of whether your drinking water is safe. We did not complete all monitoring and/or reporting for surface water constituents, and therefore TCEQ cannot be sure of the safety of your drinking water during that time.

We have taken the following actions to address this issue:

Reprimed coagulant pump. Consulted with SCADA techs to get alarms and auto shutoffs fixed.
